<b>Method (Check one.)</b>  <input checked="" type="checkbox"/> Direct Changeover (i.e., stop using current system and start using new system) <input type="checkbox"/> Parallel Changeover (i.e., run both systems simultaneously for a period of time) <input type="checkbox"/> Pilot Changeover (i.e., implement the new system in part of the organization) <input type="checkbox"/> Phase Changeover (i.e., gradually implement parts of system throughout organization)  The direct changeover method will be used to transfer from the current system to the new system. The date set for the direct changeover is 2020-06-01. Since the old system was done manually Lisa Kress decided to just switch over cold-turkey method to use the new system. After the new system has been placed into production, the old system will continue to be ready for use if problems with the new system occur.
