Mandatory	1	Usability: The system shall be intuitive and easy to use.																																																								
Optional	2	Accessibility: The system shall be fully usable by those with poor vision via voice automated API.																																																								

Constraints (Operational and/or Technical)

Technical: The LJCDT system must run on existing Microsoft Windows Server 2016 Datacenter along with Microsoft SQL 2017.

Standards

The LJCDT system must be developed using Dev Soft Inc. standard programming languages such as .NET framework. In addition, the LJCDT system must follow the coding and quality standards established by Franklin College Computing Department. Finally, the LJCDT system must follow the de facto user-face design standards associated with the modern web-based software systems.
